Put the power of the System Ten-Sixty to work for you. It's the answer for high capacity, high profit solid waste recycling.

Compare these features of the T60XD with the competition:

- 10" cylinder produces ultra dense bales reducing shipping and handling costs
- Fast 30 second cycle time for high production
- Eliminates the need for costly material preconditioning
- Oil cooler standard
- Cylinder safety cable standard on all T60XD models.

- Saves space over costly horizontal balers needing only 190 square feet
- Dual hydraulic bale ejectors will smoothly eject bales weighing $\leq 1,500$ pounds.
- Automatic bale height shutoff with indicator light
- Available with in-ground or above-ground conveyor configuration
- Meets or exceeds all ANSI and OSHA safety standards
