*"We are extremely happy with the Harmony Enterprises Hand Sanitizer Units. We purchased one for each of our locations and have them located at the main entrances. The heavy duty stands ensure that the units will not tip, the units are attractive for our business environment, and our customers love the no-touch capability."*

*-Christopher Skaalen, President, First SE Bank Of Harmony/Canton*

*"The Harmony Public Library is ever so grateful to Harmony Enterprises for their Hand Sanitizer Stations. We recently purchased 2 units, one for each entrance to the library. Patrons and staff have been using them when they enter and exit the library. This helps to keep the library open and safe for everyone. They are a great addition to our protocols."*

*-Stephanie Silvers, Harmony Public Library*
