### Compare these features of the M46HD with the competition:

- The M46HD has the power of larger vertical balers incorporated into a more compact design.
- Handles a variety of recyclable materials.
- Produces up to 400 lb. bales of cardboard.
- Has standard casters that allow the baler to roll under an 8' ceiling into operating position.
- 37 second cycle time.
- Designed for easy and safe one person operation.
- Lower cost of operation when compared to larger vertical balers.
- Reduces waste disposal costs and generates recycling revenue for your business!
- The M46HD utilizes Harmony's legion electrical box which provides baler diagnostics, making the baler easier to operate while reducing downtime and potential first-call service trips with machine intelligence.
