

Energy Optimization

**Harmony**<sup>™</sup>

POWERED BY  **POPPY**

Harmony continues to stay on the leading edge of sustainability by partnering with Poppy to create a fully managed energy optimization service that ensures that your building space achieves continuous energy savings, while maintaining healthy air quality standards!

## **HOW DOES IT WORK?**

At absolutely zero risk, no cost to you, our engineers come to your building space or place of business to complete digital 3D, high resolution mapping of air distribution and balance for advanced HVAC diagnostics.

After releasing safe, food-grade tracer particles into the air, Poppy sensors collect millions of data points tracking how particles move and are removed over time. Within minutes, results and recommendations are available to help you make money making healthy decisions for your spaces!

### **1. Baseline**

Rapid 10-30% floor area measurement while the space is occupied with instant online results.

### **2. Optimize**

Use our results & recommendations to optimize equivalent clean airflow adjusted to occupancy.

### **3. Verify**

Harmony verifies each zone is on target for ASHRAE 241 and 62.1 at true occupancy levels. Congrats on your balanced building!

### **4. Maintain**

Harmony conducts seasonal maintenance to continuously optimize energy savings, safety, & sustainability.

**Know Exactly How Your Space Performs!**

**Above Target** → Reduce to save even more on energy & emissions

**On Target** → Maintain optimized comfort and compliance

**Below Target** → Improve airflow for healthier, more productive environments

**This vital data helps you:**

- Recalibrate systems for maximum efficiency
- Demonstrate compliance & sustainability
- Protect occupant health
- Reduce costs & risks

***Risk-Free Performance Guarantee!***

The best part of Harmony's solution for energy optimization is that it comes with a risk free performance guarantee!

Our innovative program only succeeds if you save money—no upfront fees, no hidden costs.

The entire model is designed to ensure you always save money on your ventilation energy while maintaining the highest indoor health standards.

If savings fall shorter than projected, Harmony's Energy Optimization Guarantee provides a refund of any excess payments to ensure a positive ROI for every building.
